

# Mobile Terminal

## EFT 930G Colour

### Taking card payment transactions wherever you are

- Face to face and telephone Chip & PIN payment solution
- Ergonomic, compact design which is both robust and light weight
- Ensures every operation is simple to operate and easy to transact
- Fast service transaction time @ 5 seconds speeds up payments
- Fast charge long life battery for up to 300 transactions
- PCI PED approval delivers the ultimate in secure transactions

### Overview

The Cardsave Mobile 930g GSM/GPRS credit and debit card processing machine delivers absolute mobility to process credit and debit card transactions without a fixed telephone line in both indoor and outdoor environments.

If you're a plumber, installer or any business where you may not have access to a landline but would like to accept card payments our mobile terminal could be a great option.

Our mobile PDQ payment terminal provides the ultimate freedom and flexibility to take payments "wherever you are" to optimise every sales opportunity. Utilising the GSM/GPRS network, transactions are processed in seconds without any additional call charges.

### Features and Benefits

- GSM/GPRS – pay wherever you are!
- Ideal for both indoor and non-aggressive outdoor environments
- Up to 200 transactions between charges – lasts a working day
- Base unit only required for charging
- Supports the latest Chip & PIN card technology
- Optimal and secure card reading
- Accepts all major credit, debit and charge cards
- Frees up telephone landlines for other business calls
- Large backlit graphic display with adjustable contrast
- Quiet, fast and easy-loading printer
- Long magnetic stripe reader for optimal card reading
- Intelligent long life Li Ion battery
- Car charge cable for mobile environment
- Backup external modem (LinkBox) ensures continuous operation

Cardsave credit card machines are equipped with Address Verification Services (AVS) and Cardholder Security Code (CSC) technologies in the fight to combat fraud with customer not present transactions.
